

## **Acermetric - Discovering offsite TOUR**

**Date:** 21 September 2010

**Venue:** Acermetric  
64 The Waterhouse Business Centre  
Cromar Way  
Chelmsford Essex  
CM1 2QE

**Host:** David Appleford

### **Description of the Tour**

AcerMetric Ltd is a British engineering design and development company that invests finance time and resources into the development of it's own unique products. The AcerMetric Versatile Building System is marketed and sold to end users through selected licences.

Licences are now available for the commercial exploitation in various sectors and territories worldwide.

The Acermetric System is a revolutionary new method of constructing accommodation. Utilising self supporting, pre tensioned inter-locking, lightweight panels for constructing walls, floors & ceilings, to create strong structures. The construction is cost effective, quick, simple and is readily transported as a flat pack or in pre-formed modules.
