

## The Magnificent Seven!!

The Britspace factory is busy with no less than **7** projects currently in manufacture. The West Yorkshire Police project will see Britspace installing Police custodial cells into 5 different stations across West Yorkshire. Installation of the 23 custody cells starts in September.

Whalley Range School in Manchester will soon be dining in style when their new kitchen and canteen facilities are installed later this month. Manufacture of the 19 modules is coming to a close with the transportation and installation starting next week.

Britspace's bathroom pod division, Gateway Pods, continue their success with the Holiday Inn hotels group, currently manufacturing 192 of the new generation bathroom pods for a Holiday Inn Express in Manchester.

The first of 4 new schools for Leeds City Council is currently in manufacture as part of the recent framework agreement. Work has started on site at Guiseley School ready for the installation of the new teaching block.

Other projects in the factory include further projects for Gateway Pods and several adaptation projects for the Salford Housing Trust. Britspace adaptations are an innovative approach to providing quality living accommodation for the disabled.

For further information on the solutions Britspace provides for the education, healthcare, residential, military, custodial, and commercial sectors please visit [www.britspace.com](http://www.britspace.com) or call us on T: 01430 444400.

Ends.
