

Case Study 2

Circle Health's Capital Programme

Circle

Foster + Partners

BWL

30 December 2011

A large, cylindrical hay bale sits in the foreground of a grassy field. The background features a line of trees and rolling hills under a dramatic sky with orange, pink, and blue hues from a sunset or sunrise.

Circle

Towards Intelligent Construction Buildoffsite / RIBA

Mark Cammies
Property Director

A white circular logo with a double-line border. The word "Circle" is written in a white sans-serif font in the center of the circle.

Circle

What is Circle?

A Partnership of healthcare professionals, business people and clinicians who believe that there is a better way to deliver healthcare

New Build Private Hospitals

Strategic aim to build at least 25 new hospitals over the next 5 years.

NHS Hospitals

Selected to run the first “franchise” of an NHS General Hospital in Hinchingbrooke.

NHS Treatment Centres

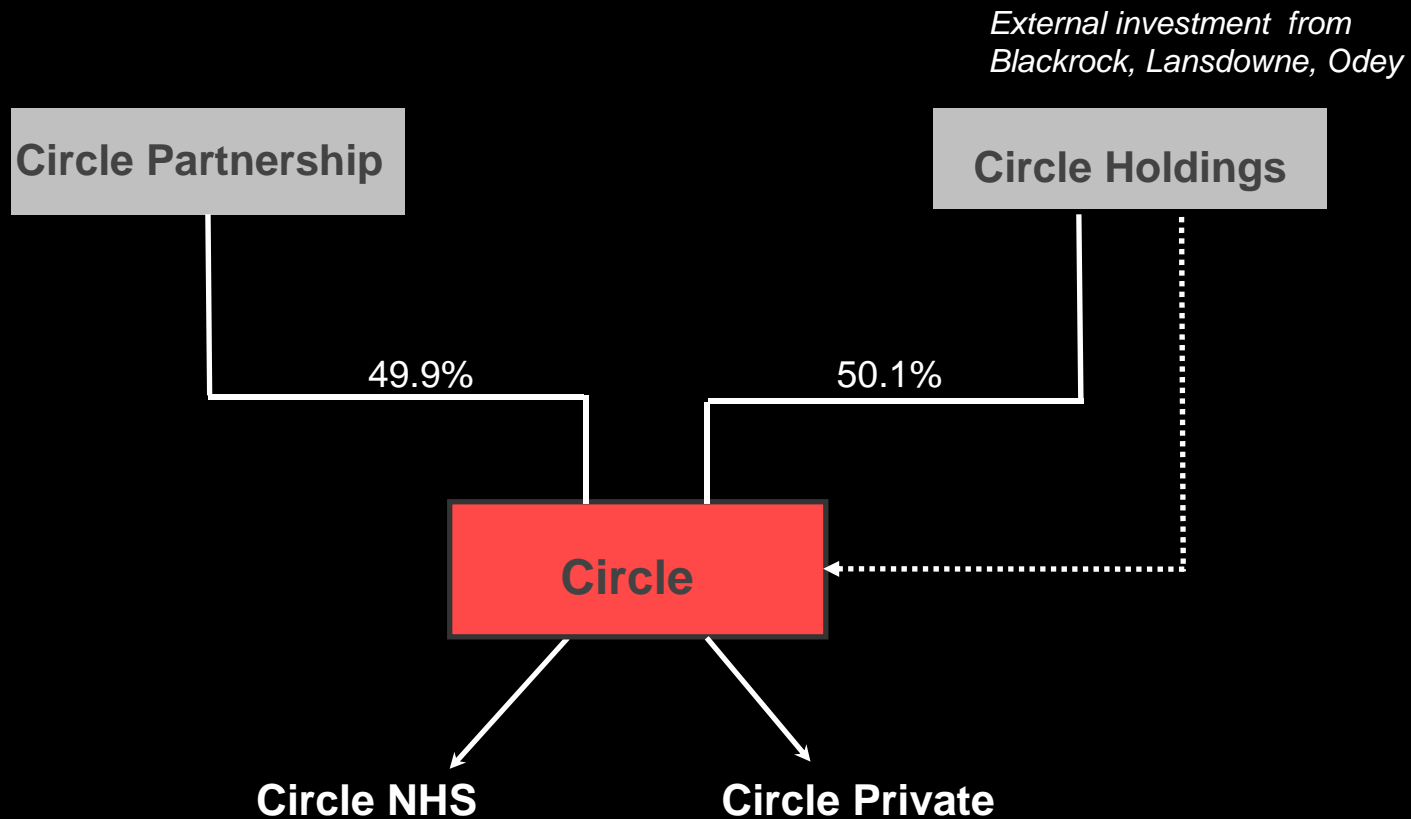

In Nottingham, we operate the largest patient volume treatment centre in Europe

Other NHS

Involved in bidding & running of various NHS services - e.g. orthopaedic

Circle Structure

Circle Vision For New Build Hospitals

- To create great public buildings in each local community location
- The facility should give a class leading patient experience
- Challenge the norms on current healthcare design and operational efficiency
- Our clinical partners should be integral to design development
- Construction programme and build costs should break current health sector standards

.....5 star standards, without 5 star costs!

The HP Way – Design Platform

- The development of our “production principles”
- Appointment of BWA to drive through component design
- Establishment of the implementation model of component design, combined with signature architecture – Fosters, Hopkins
- Announcement of the target of achieving 40% cost and programme savings (like for like) against the Bath project
- Target of achieving 80% offsite manufacture and repeatable elements

The Circle Future

- To achieve a construction cost run rate cost of below £2000 per sqm for the Circle “standard” of hospitals
- To achieve programme delivery timescales of 50 weeks or below
- Apply the implementation methodology to our NHS requirements
- Fully land our technology and design platforms
- Ensure the implementation process remains class leading
- Review the application of the delivery model to international markets

patient feedback

“Beautiful place, very friendly people”

“This hospital is a wonderful step forward for the future”

“Great surroundings and building”

“Interior 5 star environment”

“An astounding example of everything a hospital should be, this is impossible to stress too much how excellent it is”

“Best hospital in England”
