

Jaguar factory visit

19 October 2011, Birmingham

Event Details

Background

This visit to the Jaguar manufacturing plant at Castle Bromwich, Birmingham provides delegates with the opportunity to see the care and attention, which goes into building every single model that leaves the facilities.

The tour includes a short film and introduction before a guided tour of the manufacturing and assembling facilities. Jaguar is known for the excellent of its products and this tour will provide the opportunity to view the new range at first hand.

Importantly for those interested in productivity and efficiency, Jaguar prides itself on their manufacturing process, which uses lean techniques and robotics to improve the quality and cost-effectiveness of their outputs. The tour examines these aspects in detail and will provide the chance to learn more about the techniques that have helped make Jaguar a centre of excellence.

There are only 20 places available for each session.

Ticket Information

This event is **free** and exclusive to CIRIA Network, Core, Associate and buildoffsite members only.

Register by fax on 0207 253 0523; or

Personal data is gathered in accordance with the Data Protection Act 1998.

CIRIA will only contact you about products and services relevant to you and your organisation. [Back to event programme](#)

The CIRIA network

The CIRIA network is a member-based community where professionals share and develop knowledge about specific topics relevant to construction and the built environment.

The network offers members access to knowledge and networking opportunities, delivered through a compelling programme of over 50 CPD accredited events per year.

Covering up to the minute topics and featuring senior speakers and delegates, network events provide a unique opportunity to learn what's new in construction, to find out how to meet today's business and regulatory challenges and to meet valuable new contacts.

Through membership you'll enjoy an engaging platform for sharing experiences as well as the opportunity to make new connections and secure valuable business.

The benefits of membership include:

- send two, four or six delegates free to each event (for small, medium and large organisations respectively)
- develop contacts and business across the entire supply chain
- qualify for discounts on CIRIA publications
- gain early access to key legislative changes, policy developments and guidance outputs
- receive CIRIA network member e-newsletters
- access to CIRIA network information archives for all employees
- receive free event reports and CPD certificates for participants.

A 12 month subscription to the CIRIA network represents fantastic value for your organisation, with many members recouping the cost of membership in just a few months thanks to the inclusive delegate places and other benefits.

Membership is open to private, public and not-for-profit organisations including construction clients, consultants, contractors, regulators, government departments and agencies, local authorities and academic institutions. **Apply online now at www.ciria.org/network**

Attending all CIRIA network events at a non member price of £75 and 3 premiere events at £150 would cost £4,200 per person per year.

Therefore, a small company paying just £300 per year and entitled to send 2 delegates to **all** events would **save £8,400** in delegate fees!

A medium sized company would **save £16,800** with their 4 delegate entitlement and a large organisation **would save up to £25,200!**
