

Collaborative event with RICS, Tuesday 26 March 2013

Many of you will be aware that Buildoffsite is planning a collaborative event with the RICS which will take place on the afternoon of Tuesday 26 March at RICS, 12 Great George Street, London.

For the most part the programme will focus on opportunities within the housing sector although there will also be read across to the residential market and mixed use developments. The full details of the programme are still being worked on but as planned we anticipate that the event will focus on:

- the launch of the BOPAS – Buildoffsite Property Assurance Scheme
- a review of the outputs and implications from the offsite housing review that has been carried out for DCLG and the Department for Business by Professor John Miles and Professor Nick Whitehouse both of the Buildoffsite Executive Group
- a review of a major innovative housing project.

A programme will be circulated shortly but you may want to get ahead of the game by registering your interest in attending with Anna Whiting on email:

anna.whiting@buildoffsite.com

Even if you are not currently looking at the housing market you may still want to attend this event in view of the opportunities for innovative solutions that are likely to emerge in this complicated and disparate market spanning from low-rise to high-rise construction.
