

Wednesday 11th October: 14:15 – 15:15

Engineering Offsite Solutions

Jon Lock (Design 4 Structures) & Dan Leech (TDS Group)

[Jon Lock](#)

Jon has a genuine passion for innovation in engineering and digital project delivery. He is a Fellow of the Institution of Civil Engineers and has comprehensive experience of BIM and the collaborative working process. He takes a huge amount of pride and satisfaction from working with outstanding teams at Arup and AECOM delivering key projects such as Serpentine Pavilion, Heathrow Terminal 5, The Pinnacle Tower, Qatar National Museum, Leadenhall Tower, and Chiswick Park.

With more than 25 years' experience in multidisciplinary building design, he has collaborated with leading architects and clients around the globe. Bringing his experience of complex structural steel, concrete and refurbishment to Design4Structures, he drives change through forward-thinking.

[Dan Leech](#)

Daniel cares passionately about improving the construction industry. Having spent 17 years in the sector, he develops new initiatives with a clarity of vision that helps drive the group forward.

As Managing Director at TDS Group, he is proud to have worked on some of the most significant buildings in the London skyline. Committing to BIM as an early adopter has seen TDS Group grow to include a training academy offering free training to employers, and a Digital Engineering business helping partners construct better buildings. The drive to make the industry collaborative through BIM practices, upskilled for growth and sustainable for future generations has seen Daniel become an active and passionate member of Buildoffsite.
