#### Seminar 3

**Education and Skills to enable innovative offsite**  
14.00 - 14.45

*How can we develop the talent and capability to ensure the industry can support the rapid growth of Offsite? The entire industry needs to reskill to deliver construction in new ways and tackle the productivity and quality impasse. Hear from those who are working to bring about change with innovative models of education, apprenticeships and skills development.*

#### Workshop 1

**Innovation in Product & Material Solutions**  
10.15 - 11.00

*Innovations in material, manufacturing and product solutions are accelerating. This workshop covers innovations in concrete, composites and steel that offer improved solutions for clients and deliver better projects. This Workshop will showcase innovations from C-Probe, Tata Steel, Tufeco supported by the National Composites Centre.*

#### Workshop 2

**Fast fit out and refurbishment the Offsite way**  
12.00 - 12.45

*Innovative offsite is not about putting traditional trades and practices into a factory. Hear from leading suppliers of 'fast fit' solutions that can enable improvement in speed, quality and ultimately cost in both on-site fit-out and offsite manufacturing. Not everything needs to be done in one factory.*

#### Workshop 3

**Supporting innovative housing solutions - BOPAS certification**  
15.00 - 15.45

*Hear from manufacturers how BOPAS certification is de-risking their offsite investment decisions, giving confidence to lenders and supporting the rapid growth of offsite take-up.*

#### In Conversation With – Session 2

**Is offsite really more expensive?**  
11.45 - 12.30

*Traditional cost-models are inadequate for assessing true project cost. Hear from those who successfully deliver.*

#### In Conversation With – Session 3

**Achieving Design Excellence with Offsite**  
13.15 - 14.00

*Great design is not curtailed by an Offsite approach. It just requires a different application of architects' creativity. The shift of approach to Design for Manufacture and Assembly (DfMA) needs designers to invest time in understanding the core principles and also the capabilities of the supply chain.*
