4:00 - 4:45pm-Introduction to the Panel

Panel debate will focus on the work being undertaken by John Moore's University, the Peel Group and Homes England especially looking at how technology is influencing greater use of offsite housing. The debate will focus on local activity and scope within Liverpool for new homes that can take advantage of the use of manufactured housing solutions. The panel will interact with the audience to consider what needs to be done next to ensure we have sufficient housing supply. Panel members include; John Moore's University, Peel Group, Chris Johnson, Senior Infrastructure Specialist and Homes England

4:45 - 5:15pm Wrap up session News and views plus reporting back on what's happened since the last Residential Hub meeting.
