

## Agenda

**The Benefit and impact of the supply chain (including SME's) on whole life costs and the predictability of offsite housing supply**

**10.15am – 3pm (to include a networking lunch)**

**Hosted By Mitsubishi Electric, Travellers Lane, Hatfield, AL10 8XB**

**10:15: Registration** (Tea and Coffee)

**11:00: Buildoffsite:** Opening Residential Hub address and introduction to event

### Presentations

**11:15: Hertfordshire Building Control - Trevor Clements:** Fast Track Approval for Fast Track Construction.

**11:30: Mitsubishi Electric - Stuart Bell:** Call to other members to open up discussions on early delivery and design of M&E with reference to supply chain and impact on whole life costs.

**11:45: Lucideon - Joanne Booth:** The benefit of product testing on the supply chain and predictability of offsite housing supply.

**12:00: JCB (Matthew Cockerill / Adrian Hall):** How a well-established company is bringing a new perspective to offsite; including reference to the supply chain and whole life costs of approach.

**12:15: WAGO - Paul Foulkes:** With a focus on collaboration with other members including Mitsubishi and how the supply chain is a key factor including how they have developed new working relationships.

**12:30 – Buffet Lunch and Networking**

**13:30: Ideal Lifts (David Whorwood):** To challenge traditional thinking and disrupt the processes and complexities of conventional bespoke lift shaft construction on offsite projects. How ongoing collaboration with other members can simplify and improve the design, processes, management and safety of lift design, installation and maintenance. How the supply chain can work together to make life easier for others.

**13:45 – Soap Box session for New Members –** Forum to introduce and give new members the opportunity to introduce themselves Speakers to include: **Tom Eshelby, Stelling Properties; Neil Bills, Ideal Standard**

**14:00 – Panel Debate –** Picking up on the theme and speaker sessions the panel will debate the importance of the supply chain in offsite delivery, why clients should engage with them more to overcome design and cost barriers and why we should focus more on the whole life costs of the products we install to protect future budgets and expenditure. – **All speakers plus members of the Buildoffsite team**

**15:00 – Buildoffsite Residential Hub news and events roundup**
