

## Residential Hub National Conference

This is a key Residential Hub event that you **shouldn't miss** especially if your interest in offsite housing extends to how much will it **cost**. This residential hub event will look at how the offsite sector is addressing cost, are clients getting value for money and what capacity is there in the sector to deliver a predictable housing supply to market that gives confidence to clients.

The **panel session** will include representatives from the speaker sessions together with key players in the sector who have been instrumental in shaping its direction. The panel (together with the audience) will consider the impact of both volume and quality on the costs and what steps need to be taken to ensure offsite solutions are prioritised.

We have now secured a 200 seat venue for the event so it should be well attended with plenty of clients and residential advisers attending.

There are a couple of sponsorship opportunities available if you are interested.

We are looking for members who are willing to speak at the event and can add value to the theme. The **theme** of this event will focus on the **cost of supplying different housing solutions** based on its material and manufacturing system. Particular emphasis will be placed on the proportion of the system (ex-factory) that replaces on site works and how suppliers and manufactures can offer value for money to clients.

We are looking for members who are willing to complete a **Cost Summary Analysis (CSA)** or work closely with a **QS** or cost consultant to showcase their product and highlight costs.

If you are interested we will provide a blank CSA for you to complete and work with you as required to fill it in.

We are looking for a CSA for a typical 3 bed house or a 2 bed flat - nothing more. If you are interested and are willing to take up one of speakers slots then please confirm your interest to Anna Whiting ([anna.whiting@buildoffsite.com](mailto:anna.whiting@buildoffsite.com)) by no later than the **25th January**.

We have 5/6 speaker slots available so please get in early if you are interested. If you want to discuss this opportunity in more detail or obtain more information please feel free to call **Dennis Seal, Hub lead** on 07837 927534.
