Future Residential Hub Event

Residential Hub National Conference

19 MARCH 2019 , 226 CHURCH ROAD, WILLESDEN LONDON, UNITED KINGDOM
NW10 9NR

What is the cost of offsite manufactured solutions for residential – is it cost effective & are clients ready to use more offsite to increase capacity?

11am-4pm

This is a key Residential Hub event that you shouldn't miss especially if your interest in offsite housing extends to how much will it cost. This is our first national event and we will be looking closely at the cost of both high and low rise housing; including how affordable they are when compared to different housing tenures and delivery solutions.

Thank you
