

## UKGBC Circular Economy Report Launched April 2019

### A. Reuse (including refurbish and repurpose)

- i. Reuse the existing asset
- ii. Recover materials and products on site or from another site
- iii. Share materials or products for onward reuse

### B. Design buildings for optimisation

- i. Design for longevity
- ii. Design for flexibility
- iii. Design for adaptability
- iv. Design for assembly, disassembly and recoverability

### C. Standardisation or modularisation

Designing and constructing buildings that apply standardised elements or modular designs for materials and products that enable a reduction in construction waste and easier reuse in next life.

### D. Servitisation and leasing

### E. Design and construct responsibly

- i. Use low impact new materials
- ii. Use recycled content or secondary material
- iii. Design out waste
- iv. Reduce construction impacts
