

## MMC's impact from design to whole lifecycle 23 March 2022 | Virtual conference

Programme | All sessions include time for Q&A and discussion

- 09:15 Welcome and introduction  
**Conference Chair:**  
Dr David Hancock, CIRIA Chairman and Construction Director, **Infrastructure Projects Authority, Reporting to HM Treasury and Cabinet Office**
- 09:25 Keynote address: Transforming the construction process  
Sam Stacey, ISCF Challenge Director for Construction, **UK Research and Innovation**
- 09:55 How Modern Methods of Construction (MMC) is helping to achieve net zero targets on projects
- Evaluating the social, economic, and environmental value of MMC in addition to the investment costs in the tender process.
  - Delivering significant reductions in carbon emissions and greater energy performance.
  - Adopting new materials and the Low Carbon Concrete Routemap.
- Veronica Flint Williams, Contract and Risk Manager, **Environment Agency**  
Dr Michal Drewniok, Research Fellow in Transforming Foundation Industries, School of Civil Engineering, Faculty of Engineering and Physical Sciences, **University of Leeds**  
Ken Davie, Designer / Architect, **Krozen Design & Consultancy** and Associate, **Supply Chain Sustainability School**  
Graeme Brady, Engineering Manager, **NG Bailey**  
**Moderator:** Nigel Fraser, Industry Advisor, **Buildoffsite**
- 10:40 Break
- 10:50 MMC's contribution to rethinking 'value' and whole lifecycle including design and maintenance
- Facilitating easier design, construction, maintenance, repair and repurposing assets with MMC.
  - Rethinking 'value' and whole life costs including design and maintenance with input from Buildoffsite's client and supplier workshops.
- Deborah Vogwell, Head of Development Transformation, **Homes England**  
Julien Dixon, Key Account Manager, **Elkins Construction**  
Lorraine Butler, Delivery Director – Digital by Default, **National Highways**  
**Panellist:** Camilla Marcus-Dew, Head of Ventures, **Connection Crew CIC**  
**Moderator:** Doug Waters, Client Group Chair, **Buildoffsite**

- 11:35 The role of MMC in delivering transport and logistical solutions
- Understand the challenges facing transport and logistics.
  - Discover how data and digitisation are offering solutions and accelerating the adoption of offsite and modular construction.
  - Hear practical case studies outlining the operational changes businesses are making and how they are overcoming offsite challenges.
- Amin Tabkhi, Research Engineer, **Construction Innovation Hub / BRE Group**
- Felipe Maya Duque, Research Technical Lead, **Construction Innovation Hub / BRE Group**
- Jez Desmond, Group Head of Commercials, **WS Transportation**
- Ryan Robinson, Head of IT and Software, **WS Transportation**
- Lucy Sales, Industrialised Construction Director – Transport, **BAM Nuttall**
- Moderator:** Gill Kelleher, Impact Director, **Construction Innovation Hub / BRE Group**
- 12:20 Break
- 12:30 Financial incentives for innovating through MMC
- Learn about access to funding challenges for MMC projects and how recognised industry assurance schemes are mitigating the risks.
  - Discover how Research and Development Tax Credits are propelling businesses to deliver faster and more sustainably using MMC.
- Charlie Blagbrough, Mortgage Policy Manager and Green Finance Lead, **Building Societies Association**
- James Reid, Head of Financial Lines, **Vista Insurance Brokers**
- Judy Bishop-Lund, Business Development Executive, **Access2Funding**
- Stephen Wightman, Regional Director – UK MMC Lead, **Faithful+Gould**
- Moderator:** Terry Mundy, BOPAS Consultant, **Lloyd's Register Quality Assurance**
- 13:15 Closing remarks
